3 bedroom country house, annexes and workshop

A unique house set in beautiful countryside, with 2 guest annexes and a workshop.

If you like to live and think outside of the box, this house just outside Loulé, situated in a quiet rural area, could just be what you are looking for. The original house was totally renovated and transformed in a solid strong home, with cosy rustic features. The stone walls and beautiful floors give the house a traditional atmosphere.

Set within natural gardens, and with sea and country views this is a fantastic opportunity, and not the type of house that is often available on the market.
